

Clinical Seminar

BEST of IPOKRATES: An Update in Neonatology

The Leuven Institute for Ireland in Europe
Janseniustraat 1, 3000 Leuven, Belgium
4th - 6th October 2023

Objectives

IPOKRATES seminars provide high quality postgraduate education, which enables professionals to keep abreast of the most recent developments and offer participants the opportunity to discuss clinical problems or scientific issues personally with international experts. Didactic sessions will provide updates on current concepts of pathophysiology, prevention and management of many of the problems encountered in the field of neonatology. Knowledge gaps and opportunities for future research will be discussed. This seminar also offers a comprehensive update on important problems, pathophysiology, clinical assessment, management and care in the premature and mature newborn. In addition to didactic sessions, there will be hands on workshops related to resuscitation, ventilatory management, point of care ultrasound and neurologic monitoring.
